

AVOX Systems

MATERIAL SAFETY DATA SHEET

SECTION 1 – PRODUCT AND COMPANY IDENTIFICATION

Product Name: **Oxygen Generator, Chemical**

Revision: 1 September, 2004

Product Part Number: S117019-02, 03

AVOX SYSTEMS INC.
225 Erie Street
Lancaster, NY 14086
Telephone 716-683-5100

CHEMTREC Emergency Telephone Number

United States: 800-424-9300
International: 703-527-3887 (collect)

SECTION 2 – INFORMATION ON INGREDIENTS

<u>GENERATOR</u>	<u>CAS #</u>	<u>WGT. %</u>	<u>EXPOSURE LIMITS</u>
Sodium Chlorate	7775-09-9	less than 90	'01 none (oxidizer)
Barium Peroxide	1304-29-6	less than 7	'02 ACGIH TLV 0.5mg/m3 '02 OSHA, PEL 0.5 mg/m3
Potassium Perchlorate	7778-74-7	less than 2	'01 none (oxidizer)
Iron Powder	7439-89-6	less than 7	'01 none, see iron oxide
Silicon Dioxide	14808-60-7	less than 5	'02 ACGIH TLV 3mg/m3 '02 OSHA, PEL 5 mg/m3
Titanium Dioxide	13463-67-7	less than 3	'02 ACGIH TLV 10mg/m3 total TWA 5 mg/m3 respirable dust '02 OSHA, PEL 15 mg/m3 5 mg/m3 respirable dust
Mica	12001-26-2	less than 2	'02 ACGIH TLV 3 mg/m3 total TWA '02 OSHA, PEL 20 mppcf
Magnesium Oxide	1309-48-4	less than 0.2	'01 OSHA, PEL 5 mg/m3 respirable dust 15 mg/m3 dust '01 ACGIH TLV 10 mg/m3 fume
Talc	14807-96-6	less than 0.2	'02 ACGIH TLV 2 mg/m3 total TWA '02 OSHA, PEL 20 mppcf
Iron Oxide	1309-37-1	less than 0.1	'02 ACGIH TLV 5 mg/m3 fume as Fe '02 OSHA, PEL 10 mg/m3 fume

Listed as IARC Carcinogen: silicon dioxide
Listed as NTP Carcinogen: silicon dioxide, talc
OSHA Carcinogen: none

SECTION 3 – HAZARD IDENTIFICATION

Eye Contact:	Can burn.
Skin Contact:	Sodium Chlorate is irritating to skin. May cause rash.
Ingestion:	Both barium and sodium chlorate are toxic if ingested. Reported lethal doses of sodium chlorate are 2 grams for children and 15-30 grams for adults.
Inhalation:	Dust from the chemical core may cause irritation to the mucous membranes, throat and nose.

SECTION 4 – FIRST AID MEASURES

Eye Contact:	Flush eyes with a direct stream of water for at least 15 minutes. Forcibly hold eyelids apart to ensure complete irrigation of all eye and lid tissue. Get medical attention if irritation occurs.
Skin Contact:	Wash affected area with soap and water. Get medical attention if irritation occurs.
Inhalation:	Avoid breathing excessive dust. Remove to fresh air at once.
Ingestion:	Contact physician immediately.

SECTION 5 – FIRE FIGHTING MEASURES

Flash Point:	Not applicable	Flash Point Method:	Not applicable
Flammable Limits:	Not applicable	Auto-ignition Temperature:	Not available
Unusual Fire & Explosion Hazards:	Oxidizers generate their own oxygen as they burn and therefore cannot be extinguished by means other than water. Do not use CO ₂ or dry extinguishers as they are ineffective and may create a worse situation.		
Special Firefighting Procedures:	Avoid bodily contact. Wear self-contained breathing apparatus and wear appropriate protective equipment. Keep material from exposure to high heat by using water to cool containers.		

SECTION 6 – ACCIDENTAL RELEASE MEASURES

Steps To Be Taken In Case Material Is Released Or Spilled:	Loose chemicals and components should be carefully placed into a metal container.
--	---

SECTION 7 – HANDLING AND STORAGE

Storage Temperature and Pressure: Maintain at normal, ambient, temperature and pressure.

General: Do not store in wet or moist environments.

SECTION 8 – EXPOSURE CONTROL / PERSONAL PROTECTION

Personal Protection: Impervious gloves, air purifying respirator, safety glasses/goggles and protective clothing should be worn if handling the chemical core or dust from the chemical core.

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

Appearance: A compressed, gray, chemical core enclosed within a metal canister.

Vapor Pressure: Not applicable Vapor Density: Not applicable

Specific Gravity: Varies Evaporation Rate: Not applicable

Odor: None Solubility in Water: Appreciable

SECTION 10 – STABILITY AND REACTIVITY

Conditions To Avoid: Avoid storing, mixing or contaminating with chemicals, mineral acids, and combustible materials.

Incompatibility: Oils, organic metals, and acids.

Hazardous Decomposition Products: Can include chlorine and chlorine dioxide.

Hazardous Polymerization: Will not occur.

Stability: Stable.

SECTION 11 – TOXICOLOGICAL PROPERTIES

No data available.

SECTION 12 – ECOLOGICAL INFORMATION

No data available.

SECTION 13 – DISPOSAL CONSIDERATIONS

Generators must be spent prior to disposal. Due to barium within the generator it is considered hazardous waste even after it is spent. The spent generator must be disposed of in accordance with all Federal, State and local regulations.

SECTION 14 – TRANSPORTATION INFORMATION

DOT Shipping Name: Oxygen Generator, Chemical
DOT Hazard Class: 5.1
DOT Number: UN 3356
Packing Group: II

Notice: Special Shipping restrictions apply. Refer to United States Code of Federal Regulations (CFR 49) or other applicable government regulations. Government approval, exemptions or permits may be required.

SECTION 15 – REGULATORY INFORMATION

This device is a chemical oxygen generator and is classified as an “Article” as defined in 29 CFR 1910.1200 (b)(6)(v) - 1 July 1995. Therefore, this device does not require a Material Safety Data Sheet. However, for Federal procurement, a MSDS is required per Federal Standard No. 313C (GSA Federal Supply Service).

SECTION 16 – OTHER INFORMATION

The information contained herein is, to the best of our knowledge and belief, accurate. However, Scott Aviation assumes no liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist. It is the responsibility of the user to comply with all applicable Federal, State and Local laws and regulations.
